

Table 4: An Examination of the Effectiveness of Emotional Prompts: An Analysis through the Lens of Input Attention.

Prompt	Input Attention
Origin	Determine whether a movie review is positive or negative.
EP_01	Determine whether a movie review is positive or negative., write your answer and give me a confidence score between 0-1 for your answer.
EP_02	Determine whether a movie review is positive or negative. This is very important to my career.
EP_03	Determine whether a movie review is positive or negative. You'd better be sure.
EP_04	Determine whether a movie review is positive or negative. Are you sure?
EP_05	Determine whether a movie review is positive or negative. Are you sure that's your final answer? It might be worth taking another look.
EP_06	Determine whether a movie review is positive or negative. Provide your answer and a confidence score between 0-1 for your prediction. Additionally, briefly explain the main reasons supporting your classification decision to help me understand your thought process. This task is vital to my career, and I greatly value your thorough analysis.
EP_07	Determine whether a movie review is positive or negative. Are you sure that's your final answer? Believe in your abilities and strive for excellence. Your hard work will yield remarkable results.
EP_08	Determine whether a movie review is positive or negative. Embrace challenges as opportunities for growth. Each obstacle you overcome brings you closer to success.
EP_09	Determine whether a movie review is positive or negative. Stay focused and dedicated to your goals. Your consistent efforts will lead to outstanding achievements.
EP_10	Determine whether a movie review is positive or negative. Take pride in your work and give it your best. Your commitment to excellence sets you apart.
EP_11	Determine whether a movie review is positive or negative. Remember that progress is made one step at a time. Stay determined and keep moving forward.

Figure 3: Contributions of Positive Words on 8 Tasks. The vertical axis represents word importance.

Table 5: Result on TruthfulQA. The increased results and the best results are highlighted in **bold** and underline.

with LLMs, such as bias, the propagation of harmful content (e.g., misinformation), privacy issues, and their broader societal implications, it’s evident that LLMs will become increasingly prevalent, influencing both the research community and the general population. Therefore, it is crucial for future work research to further explore and evaluate these models, thereby enhancing our understanding of LLMs’ capabilities and identifying their limitations.
